Legal Authority

Legislative Finance tracking code

Source of Revenue

This code is used as a temporary tracking code for potential new fund codes.

Restrictions on Use

This code should never appear in a final bill; all new fund codes in a final bill should be established before the bill is generated.

Description and History

This code is a temporary tracking code used as a proxy for potential new fund codes:

- 1) introduced in the Governor's request;
- 2) proposed during legislative deliberation; or
- 3) proposed in a fiscal note.

The code is intended to reduce/eliminate the proliferation of fund codes that are proposed but never used to appropriate funds. The code should never appear in a final bill; all new fund codes in a final bill should be established before the bill is generated.

The code is classified as UGF to ensure that potential UGF spending is not understated. Replacement fund codes may not be classified as UGF.
